CISM General Rules

1. General aspects

- 1.1 The official Modern Pentathlon rules published by the Union Internationale de Pentathlon Moderne (UIPM), as modified by these regulations, will be used for the administration of competitions and appropriate portions of the organization of the championships. The following rules must be applied at all CISM competitions. The rules cannot be changed or modified without the approval of the CISM Secretary General who may delegate this responsibility to his Sports Committee President.
- 1.2 In case of discrepancies between sports regulations, CISM Policy and Procedures Manuals and UIPM competition rules, the CISM Sports Committee will make a decision to resolve the discrepancy.
- 1.3 Non CISM-member nations may be invited to compete in CISM competitions. However, there must be an official result list only for CISM members and a second list where everybody is indicated as competitor of the open competition.

2. Format:

- 2.1 As a rule, official CISM competitions are organized as one-day competitions where it is recommended that all five events take place in one site and within walking distance of each other. Team classification may also be included, using the modern pentathlon points from the individual classification.
- 2.2 The relay must take place as a one-day competition. The men's relay takes place over one day and the women's relay over a second day.

3. The five events

3.1 Fencing (Electric Epée)

- Individual: Pool unique; one decisive hit in 1 minute.
- Team relay: Team member number:
 - X1 versus Y1
 - X2 versus Y2
 - X3 versus Y3Number of bouts depends on the number of teams

3.2 Swimming

- Individual: Freestyle 200 m
- Team relay: Freestyle 3 x 100 m or 2 x 100 m

3.3 Riding (show jumping competition, speed 350 m/min; indoor 300 m/min) No riding takes place in qualifications for the finals

- Individual: 12 obstacles, 350 – 450 m course
- Team relay: 9 obstacles (with 3 or 2 pentathletes and 3 or 2 horses) 3 or 2 x 350 m course (without combination) obligatory. Regional competitions may utilize one horse per team: 6 obstacles, 3 x 200m course (without combination) possible

3.4 Combined Event

- Handicap start / Any surface
- Air pistol, caliber 4.5 mm / .177 caliber, 10m Range
- Laser system: the combined event may take place using the laser system in accordance with UIPM guidelines
- Individual:
 - 5 targets down (time limit 1'10"); 1000m run;
 - 5 targets down (time limit 1'10"); 1000m run;
 - 5 targets down (time limit 1'10"); 1000m run.
- Team relay:
 - 5 targets down (time limit 1'10"); 1000m run;
 - 5 targets down (time limit 1'10"); 1000m run;
 - For each of the 2 or 3 pentathletes

4. Order of events

4.1 In one-day competitions the order of events in the final part will be:

- Fencing
- Swimming
- Riding
- Combined (always organized with a handicap start)

4.2 In the qualifications for the finals of Military World Championship competitions, the combined event must be the final event.

4.3 The organizing committee must provide pentathletes with a warm-up period before each event as follows: Fencing: 30 mins, Swimming: 20 mins, Riding: 20 mins, Combined event: 25 minutes + 5 minutes preparation. The warm-up period is considered to be an integral part of the competition. In the competition Finals, the warm-up areas are only at the disposal of those participants that have qualified for the Finals.

4.4 The Victory Ceremony is conducted as soon as possible after the final event, no matter if there are protests or not. The organizing committee must play the national anthem of the Victor and the national flags of the medalists must be displayed.

5. Types of competitions

5.1 CISM World Championships

The CISM World Championships are organized annually for Individuals and Relays

5.2 CISM Continental Championships

Every Nation has the right to organize Continental Championships. If the event is deemed by the organizer to be a Continental Championship, a relay must be included as the last competition. The teams for the Relay are selected on the basis of the NF's Team rankings from the Individual competition.

5.3 Regional Competitions

Every Nation has the right to organize Regional Competitions, whereby "region" is understood as embracing the territory of more than one nation.

6. Program of Events at CISM Competitions

6.1 Military World Championships for Individuals

Day 1 – Men’s Qualifications	or	Day 1 – Women’s Qualifications
Day 2 – Women’s Qualifications	or	Day 2 – Men’s Qualifications
Day 3 – Men’s Finals	or	Day 3 – Women’s Finals
Day 4 – Women’s Finals	or	Day 4 – Men’s Finals

6.1.1 If the number of pentathletes is 40 or less, the PCSC and the OC can decide not to organize Qualifications for the Finals, if conditions allow. In the qualifications for the final, groups of 20–36 pentathletes are formed; the maximum number of pentathletes from the same NF competing in the same group is 2.

6.1.2 The placing of the pentathletes into the qualification groups for the Final is made in accordance with the current PWR list, as follows:

Group A	Group B	Group C	Group D
1	2	3	4
8	7	6	5
9	10	11	12
16	15	14	13
17	18	etc.	

6.1.3 The following number of pentathletes qualify for the Final:

- 2 groups - the top 18 from each group
- 3 groups - the top 12 from each group
- 4 groups - the top 9 from each group

6.1.4 If a pentathlete withdraws from the Final before the start due to an injury or sickness, the pentathlete will be replaced by the next pentathlete from the same group.

6.1.5 Military World Championships for Individuals must have individual and team classification.

6.2 Military World Championship Relay

6.2.1 There will be a separate team relay competition, recommended as the last event. Each nation may enter only one team.

6.2.2 There are two options for the relay competition:

- The 3 competitor option allows up to 16 teams to compete in a one-day format in each category, consecutively for women and men. Teams will be composed of three athletes of the same gender from the same nation. A minimum of 8 nations for men and 4 for women is necessary.

- The 2 competitor option allows up to 20 teams to compete in a one-day format in each category. The teams comprise one male pentathlete and one female pentathlete from the same nation. A minimum of 8 nations is necessary.

7. Participation

7.1 The ordinary composition of a mission is as follows: 1 Chief of Mission, 1 team captain, 1 men's coach, 1 women's coach, 4 male competitors, 4 female competitors; in total 12 personnel. A team physician is permissible as well if agreed upon by the OC. This composition can be changed by the organizer with acceptance of the PCSC.

7.2 The deadline for receipt of official delegations must be received at the latest, is 60 days before the competition. If the deadline for final delegations is missed, the nation is considered as non-participating and can be replaced by another nation upon invitation.

7.3 In the final confirmations, participating nations must list the names of those within their delegations. No delegation may arrive at the competition with more than the invited number of pentathletes and officials including substitutes.

7.4 Military World Championships for Individuals

7.4.1 Every nation has the right to enter 3 participants.

7.4.2 If the total number of entries is less than 108 pentathletes, further pentathletes can be invited to participate until the 108 limit is reached per gender. The first invitation will go to the host federation, the others on the basis of the UIPM PWR. No nation may start with more than 4 pentathletes, but 4 can participate in the Finals.

7.4.3 The host nation has the automatic right to enter 3 participants (4, if the quota of 108 has not been reached) in each category of the Individual qualifications for the Final competition and to compete in the Military World Championships Relay. The organizing committee, after having received the preliminary entries, must confirm in writing the acceptance of the 4th pentathlete.

7.4.4 Prior to the Technical Meeting, the organizer prepares the definitive competitor's list with PWR place for each athlete. Competitors without PWR receive the same number and are placed last in the qualification for the final groups.

7.5 Military World Championships for Relay

7.5.1 Military World Championships Relay with 3 pentathletes (up to 16 teams allowed to compete)

7.5.1.1 Nations may enter different pentathletes than those entered in the Individual competition as long as they are one of the four pentathletes from the official team delegation.

7.5.1.2 The continental regions will be represented as follows:

- Africa 1 team
- America North and Central 2 teams
- America South 2 teams
- Asia 3 teams
- Europe 7 teams
- Host Federation 1 team

7.5.1.3 If one region is not present, the CSC will determine which region may add a team. Variations to nation representation can be approved by the PCSC.

7.5.2 World Championships Relay with 2 pentathletes (up to 20 teams are allowed to compete).

7.5.2.1 The teams comprise one male pentathlete and one female pentathlete from the same nation. Qualification for the team is the highest placed pentathlete in the Individual Championships per gender from the nation.

7.5.2.2 Continental representation will be the same as for the 3-pentathlete relay format.

8. Competition Authorities

8.1 CISM Sports Committee

The CISM Sport Committee (CSC) is overall responsible for the management, development and technical aspects of the CISM competition.

8.2 UIPM Technical Delegate (TD)

A UIPM TD is a qualified International Judge proposed by the UIPM Technical Committee and appointed by the UIPM Executive Board. Together with the PCSC, the UIPM TD supervises the work of the organizing committee from a technical perspective.

8.3 Medical Delegate

A Medical Delegate supervises the doping controls and must be present on the field of play to advise team captains who intend to administer drugs to sick or injured athletes, so that no forbidden drug is used by mistake. Other duties must be supervised as per section 14, Medical Requirements.

8.4 UIPM International Judges

A minimum of two and a maximum of to nine persons must be UIPM five licensed International Judges. The UIPM IJ will be available to the organizing committee in all events. In the fencing event, no judge is to officiate a bout that includes a pentathlete from his own federation.

8.5 Technical Jury

- 8.5.1 Composition: The Technical Jury is composed of a President and two or four additional members. The President will be the PCSC. Further members must be chosen among the CSC (neither organizers nor host nation) invited by the PCSC. One member will be the UIPM Technical Delegate. If he/she is not present, then another CSC member will be invited to complete the jury. When it is possible, these members should have an International Judge's License.
- 8.5.2 Meeting of the Technical Jury will take place at the request of the organizer or the team captain. A protest against the participation of an athlete must be raised before the start of the draw at the Technical Meeting.
- 8.5.3 The Technical Jury may also meet when there is need to discuss the application of a specific rule.
- 8.5.4 Voting: The Jury's decision should be made by a secret ballot. If everybody agrees, it is also possible to vote by raising hands. A majority vote will decide. If there is any doubt, the Jury should decide in favor of the competitor. In the cases of an equal number of votes, the President of the Jury will have the deciding vote. A member of the Technical Jury cannot vote in a matter concerning a compatriot. In these cases, the deliberation between the members of the Jury shall be carried out in his absence. The athlete should not be punished for ambiguous problems arising during competitions. Therefore, the decision is to be made in his favor.
- 8.5.5 The decision of the Technical Jury is valid for the duration of the respective competition.
- 8.5.6 The team captain or chief of mission (who is protesting) must be informed in written English of the Technical Jury decision, including the voting result.
- 8.5.7 If the decision of the Technical Jury does not satisfying the writer of the protest, he may continue with a new protest and the same procedure to the Jury of Appeal. He has only to pay once the deposit of 75 USD or the equivalent sum in convertible currency.

8.6 Jury of Appeal

- 8.6.1 Composition: The Jury of Appeal is composed of a President and two or four additional members. The President will be the OCR. The members are chosen among the CISM delegates of participating missions, with maximum of one per country. If less than two CISM delegates from different countries are present at the championship, the OCR may invite the Chief of Missions to complete the Jury, so that it comprises at least the requested two or four additional members. The president and chosen members must have different nationalities. Should there be more than the requested candidates, they are chosen by drawing of lots.

8.6.2 The decision of the Jury of Appeal has to be accepted. It is definitive. There is no further possibility to protest.

8.7 Organizing Committee (OC)

8.7.1 The OC must appoint:

- A Pentathlon Director and deputy, both holding the IJs license for the five events.
- A person, holding an International Judge's license for the five events, having the authority to act as a member of the Jury of Appeal.
- One member of the OC acts as Announcer and informs the public on all aspects of the competition, its events and participants as well as the results. As many persons as necessary are commissioned to take care of VIP guests.
- The OC is responsible to provide an unlimited supply of potable water at each event and to make available other fluid replacement. It is further responsible to provide general medical assistance and emergency transportation to a hospital, sanitary facilities at each site and throughout the competition as well as a veterinary surgeon during the riding event.
- The OC is also responsible to provide the necessary technical equipment at the venues, including professional technical support and results software for displaying results, a highly visible scoreboard and projection screen in each venue.
- The OC is to send immediately the results of the competition to both the UIPM using the UIPM website www.pentathlon.org. and CISM Headquarters.

8.8 Preliminary Meeting

8.8.1 The Sports Committee will conduct a Preliminary Meeting before the competition. They can invite the Official CISM Representative (OCR) and the representative from the civilian federation as well as the organizer (Pentathlon Director). Further meetings can be organized based on need and as determined by the President CISM Sport Committee (PCSC).

8.8.2 The election of the following Juries will take place at the Preliminary Meeting:

- the members of the Technical Jury;
- the members of the Jury of Appeal;
- the members of the Antidoping Commission

8.8.3 The participants at Preliminary Meeting will also receive all the further necessary instructions/information about the competition.

8.9 Technical Meeting

8.9.1 The Technical Meeting is a part of the competition. It will be held before the first event of the competition, with the attendance of:

- the coaches or team captains of all the teams (maximum 2 persons per team);
- the chief officials of the Organizing Committee.

8.9.2 A team unable to be present at the TM must inform the OC at least 24 hours in advance with the necessary data (name of the pentathlete, License ID number, results in swimming, start position in team, etc.) and delegate another nation or official to represent them. Teams not represented at the TM will not be allowed to start the competition.

8.9.3 The organizer must distribute for all events:

- Program, including information about transportation and meals
- Provisional riding course plan
- Combined event course
- Definitive start lists for swimming and fencing
- Composition of groups and mix-teams
- Fencing order, including mixed teams
- Times and venues of Equipment Controls
- List of horses and results of the "Jumping test", which must be distributed a minimum one hour before the start of the draw for horses.

9. Start List and Start Order

9.1 The starting order must be declared in written form by the team captain at the Technical Meeting prior to each competition. In all cases (individual and relay) this will then be irrevocable. No more changes are permitted once the starting lists are approved by the PCSC. If an athlete or team is not present at the beginning of the competition, its place will be free.

9.2 Only in a case of a serious illness or injury (verified by an official medical officer) before the start of the first event, the PCSC can decide if it is possible to substitute the injured competitor.

9.3 Fencing

9.3.1 In Fencing in qualification for the final in Individual competitions, the draw will be made by the PCSC before the TM for Piste No 1 by drawing one number. That team will be then Team 1. The next team in alphabetical order according to the national federation's name in English will become Team 2, etc. The teams will be placed on the pistes as shown in the UIPM Modern Pentathlon Competition Rules Appendix 3B. If a nation has 2 or more teams taking part in a competition, they will meet in the first rounds of the

fencing event according to Appendix 2B. For the Final, each nation with more than 2 athletes has the right to define fencers in team A and the fencer in the mixed team.

9.3.2 The same rules apply for fencing in the relay competitions.

9.3.3 The fencing results against non-CISM members counts for the placing in the combined event handicap-start order, but not for the final CISM result list.

9.4 Swimming

9.4.1 In Swimming in Individual competitions without qualification for the final, the pentathletes will be placed according to their PWR swimming time as detailed in Article 3.4.1.iv of the UIPM Competition Rules. In the Final, the pentathletes will be arranged according to their swimming time in the qualification for the final.

9.4.2 In Swimming in Relay competitions, the highest placed teams after the previous event compete in the second heat in start order as detailed for indiv. competitions in Art. 3.4.1.iv.

9.4.3 For the clothing on the relay, the PCSC can decide exceptions if the chosen swimsuit and trunks of the same team are different.

9.5 Riding

9.5.1 The draw & start will be conducted according to Art. 1.19.4 in the UIPM Rules.

9.5.2 After having mounted, no change of horse is permitted (exception: if a horse goes lame after inspection). Reserve horses must be chosen by draw.

9.5.3 The riding has to be done in the athlete's official Military Uniform.

9.6 Combined Event

9.6.1 In the Combined event in Individual competitions, the pentathletes start in accordance with their handicap time. In Relay competitions, the first runner of each team starts according to the handicap system. The second and third runner of a team starts once the preceding runner has touched him on any part of his body within the hand-over zone.

9.6.2 In the Combined event with pack start, all pentathletes (maximum 12 in a group) start together at the sound of a gun or similar signal. The pentathlete or team in the lead must start from the best position. The next pentathlete must be placed according to his ranking.

9.7 Starting Lists

- 9.7.1 The starting list is made 10 days after the deadline of the final entry form. The chief of mission confirms with his signature on the final entry form that he accepts this procedure.
- 9.7.2 Only the PCSC can allow to enter an athlete to the competition between the deadline of the final entry form and the Preliminary Meeting.
- 9.7.3 The OC must publish the start lists for the fencing and swimming events at the technical meeting. The starting list for riding must be provided no later than 1 hour prior to the draw. The start list for the Combined event must be available 30 minutes before the scheduled departure for the first pentathlete.

10. Competition Results

- 10.1 The final placing of pentathletes is decided by Modern Pentathlon points added from each event. The first pentathlete to cross the finish line in the combined event is the winner. If the winner has fewer points in total score than the next placed pentathlete, Modern Pentathlon points must be added so that their pentathlon score is the same.
- 10.2 If there is a tie in the total score or it is impossible to determine who crossed the finish line first, the winner is the pentathlete or team who has gained more first places in the five events. If there is still a tie, the pentathletes with the fastest time, or team with the most points, in the Combined event will be declared the winner.
- 10.3 The total number of points scored by the three-team members determines the results of the team classification. The points for the team classification are added in such a way that the highest total score for each team member achieved in the qualification for the Finals or the Finals will be considered for the team classification. The winner or the better-placed team is always the team having more pentathlon points
- 10.4 A final result list of all pentathletes is made at the end of a competition. Pentathletes who did not reach the Final are ranked according to the place first and then the number of Modern Pentathlon points they scored in the qualifications for the final. This list must be distributed by the OC to all participating nations, CISM and UIPM Delegates before they leave.
- 10.5 For result lists in each discipline, results of non-CISM members count for the Open competition. However, in the final official CISM result list, non-CISM members are not mentioned. Therefore, separate result lists, open and military, must be maintained if non-CISM members compete.
- 10.6 The same procedure is applicable for the team and team-relay competitions.

11. Prizes

The official prizes awarded at World Military Championships are listed for men and women.

- 11.1 Individual competition:
First prize Gold medal
Second prize Silver medal
Third prize Bronze medal
- 11.2 Team classification (to each team member):
Winning team Gold medal
Second team Silver medal
Third team Bronze medal
minimum: men: 6 women: 4 participating
- 11.3 Team relay competition (to each team member):
Winning team Gold medal
Second team Silver medal
Third team Bronze medal
minimum: men: 6 women: 4 participating
- 11.4 FAIRPLAY CUP
- 11.4.1 To encourage sportsman-like behavior, the fair-play cup will be awarded at each Military World Championships to the team having shown the best sporting spirit. This team shall then be considered for an annual award known as the CISM FAIR PLAY TROPHY.
- 11.4.2 The most sporting team will be chosen by a jury made up of the following members:
- The official CISM representative as president
 - A member of the organizing committee
 - The president of the CISM Sports Committee
 - The chief referee
 - The UIPM representative

12. Elimination and disqualification

- 12.1 Attention should be drawn to the difference between elimination and disqualification.
- Elimination is a penalty for a mistake.
 - Disqualification is a punishment for a deliberate attempt to circumvent the rules.
- 12.2 A competitor who abandons or is eliminated in an event scores zero points in that particular event, but he is allowed to compete in the following events.

- 12.3 If a competitor is disqualified in an event he may not compete in any of the subsequent events or in any other modern pentathlon competitions while still being disqualified. The period of disqualification will be decided by the CISM Executive Board.

13. Penalties / Protests

- 13.1 Competitors and team officials are obliged to know and obey the rules.
- 13.2 Organizers are responsible for providing qualified judges for the various events. The judges are responsible for enforcing the competition rules.
- 13.3 If a judge determines that a rule has been violated or that a competitor has sustained a penalty in connection with the event, he will immediately notify the competitor or his team captain, and officially register the reason for the penalty together with the number of penalty points.
- 13.4 If the team captain or the athlete concerned believes the judge's decision to be incorrect, he may carry the matter first to the organizer. The Officer in Charge of the Event (Pentathlon Director) must then either confirm or reverse the decision of the judge. The team captain must be informed of his decision before starting the next event.
- 13.5 At that point, and not before, the team captain who must be a military person, or the chief of mission may make an official protest to the Technical Jury.
- 13.6 A protest must be written in English and must be accompanied by a deposit of 75 USD or the equivalent sum in convertible currency. The Technical Jury will not accept any protest until all of the preceding steps have been taken.
- 13.7 A protest will not be accepted by the Technical Jury unless it was delivered to a member of the Jury within 20 minutes of the violation of the rules to which it refers; or within 1 hour of the publication of an alleged erroneous result.
- 13.8 After the start of an event, it is not possible to protest against the breach of rules or against the erroneous result in the preceding event.
- 13.9 In the event of a protest, the team captain may represent his competitor or his team, and thus is allowed to state his case. The deliberation must then be made between the members of the Technical Jury, without his presence.
- 13.10 Conclusion: If the Jury decides that the protest is not valid then the deposit shall be credited to CISM and the submitting federation given a receipt. If the Jury decides that a protest is valid, then the deposit is returned to the submitting federation. In the case of an unjustified protest, the written protest itself will be kept by the PCSC and transmitted to the CISM Headquarters with the money.

14. Medical Requirements

- 14.1 All participants in the CISM competitions should have physical evaluations by their medical staff or their state federation's medical doctors.
- 14.2 In competitions, dehydration must be prevented by providing an unlimited supply of potable water at each event. Other fluid replacement should also be made available for all.
- 14.3 General medical assistance should be available to all participants and spectators. Organizers must ensure that adequate provision is made for all emergencies including the procedure for rapid transportation to the hospital.
- 14.4 Sanitary facilities must be provided for athletes and participants at each event site.
- 14.5 A veterinary surgeon must be available during the riding event.

15. Anti-Doping

- 15.1 Doping is defined as
 - the presence of prohibited substances or its metabolites or markers in an athletes' bodily specimen
 - the use or the attempted use of a prohibited substance or a prohibited method
 - the refusing, or failing without compelling justification to submit to sample collection after notification
- 15.2 Doping, according to this definition, is strictly forbidden in CISM, and especially in Modern Pentathlon
- 15.3 At a minimum at each Military World Championship, and if possible also at other major events, anti-doping controls will be carried out according to the latest CISM Anti Doping Regulation (Chapter IV, CISM Policy Manual) that are fully in line with the World Anti-Doping Code of WADA. Specificities of the UIPM Anti Doping Regulation will be considered when necessary.
- 15.4 The operative responsibilities of the anti-doping controls will lie on the Anti-Doping Commission formed for the considered event. The composition and the tasks of this commission are defined in the CISM Anti-Doping Regulations
- 15.5 As far as possible, at least 6 tests will be carried out without considering world records.
- 15.6 The list of prohibited substances and methods used for the anti-doping testing in CISM events will always be the actual WADA list.

Checklist for organizers of a Military World Championship in CISM Modern Pentathlon

Fencing

Do you have...?

- enough pistes (ideally 9 + 1 reserve)
- enough space for changing clothes and deposit athletes' equipment in the fencing
- organized control of weapons and clothes before competition
- international referees and nominated president of Technical Jury Fencing
- lunch, snacks, possibility for drinks during the competition
- separation athletes, referees, photographers from spectators and coaches in the hall (i.e., a small wall or other barrier)
- reparation service (armorer available) for damaged weapons
- place and time scheduled for weapon and mask control the day prior to the competition
- adequate restroom facilities
- a plan for screening natural light (i.e., sun beams interfering with athletes' vision) if necessary
- A dedicated announcer who can focus the spectators onto interesting bouts
- A plan for capturing the best photographs (i.e., CISM banners posted in strategic locations around the fencing hall to capture high action with banners in background)

Swimming

Do you have...?

- 25, 33 or 50 m swimming pool (recommended 50m) with FINA approved starting blocks
- enough lanes (ideal 8)
- organized control of clothes (especially for relay)
- electronic timing with back-up system
- adequate locker / restroom / shower facilities
- a dedicated lane for practicing starts during the warm-up period
- A plan for capturing the best photographs (i.e., enough lighting and CISM banners posted in strategic locations around the swimming hall to capture the start and finish)
- A dedicated announcer who can talk about the event and focus spectators onto strong swimmers and other key athletes

Riding

Do you have...?

- enough quality horses (1 reserve for each 5 athletes second half = min. 20 for individual)
- enough space for the warm up arena
- special people designated to return the relay starting list to the organizing committee
- control for warming up area
- a plan for marking the horses (feet and head)
- enough horses to accommodate all relay team riders
- control of spurs and whip, as well as uniform
- control of clothes and people admitted during inspection of riding course
- a wall or barrier that completely encloses the riding arena
- a designated salute area
- red and white flags on each jump
- a designated start and finish line
- a dedicated announcer that knows and can explain the scoring system; the announcer should also talk about each of the athletes and their position within the competition
- a planned location for photographers/video personnel to capture best images

Combined Event

Do you have...?

- 36 electronic target positions (and minimum 2 spare targets)
- no intrusive sunlight or wind influence directly or indirectly on the shooting range
- enough light (lux according to UIPM rules)
- organized control of clothes and weapons
- a plan for separation of athletes/organizers/officials/photographers from coaches/spectators
- penalty Stop Area
- good marking of course
- clarified surface for spikes or recommendation for other shoes (a consistent running surface)
- enough starting numbers
- electronic start / finish equipment
- controlled distance and height (elevation)
- a one-meter wall between shooting positions
- enough referees (with stopwatches) to supervise the shooting (one per athlete recommended)
- a dedicated announcer that can describe the event and the significance of the handicap start; should also be able to keep track of the athletes as they navigate the running course
- a plan for photographing the start/finish making maximum use of CISM banners; consider making a CISM obstacle where photographers can obtain excellent shots

General

Do you have...?

- foreseen CSC Meeting together with organizer (2 hours) before Preliminary Meeting
- location for Preliminary Meeting with team captains, organizer and CSC
- 1 separate room in each discipline for the Jury if there are protests
- medals and gifts for prize-giving ceremony (*see page 19, Medals*)
- place for prize giving ceremony
- sent starting list to the PCSC 14 days after deadline Final Entry Form
- foreseen signature of chief of mission on Final Entry form, accepting the nominated athletes on starting list
- enough resources (people and technical) to provide provisional results before the next event (e.g. 30' before combined event start – correct starting list)
- food and drinks provided for athletes, coaches and officials during the competition day as well as a plan to communicate distribution of them
- defined composition of invited missions
- compiled program (*see page 18, Sample of a program*)
- latest edition of UIPM and CISM regulations
- Media organized and coordinated for the finals

CISM Modern Pentathlon Committee (CSC)

(status 10.07.2010)

President: Major James Gregory, (USA)

Members: Luogotenente L.T.N Giorgio Devigli, (ITA)
